The classical education movement has established itself as a compelling and superior approach to achieving excellence in Lutheran Education. *The Consortium on Classical and Lutheran Education* was founded in 2002 to provide information and educational resources to assist Lutheran educators, schools, and parents to engage a distinctively Lutheran, classical education.

The Consortium presents this seventh conference on classical and Lutheran education, *Clearly Classical—Purging Progressivism*. The conference will present a wide array of talented Lutheran educators who are experienced with teaching and developing instructional resources to assist others to teach according to the classical education model. Plenary sessions and sectionals will provide participants with a broad range of resources including curriculum development, teaching strategies, basic orientation to the classical approach, instructional resources, and much more.

Why not make a vacation out of CCLE VII! Learn more about classical education and take in some great Texas hospitality.
